

DORHYAN

Connecting fund distribution, compliance and growth

Grow AuM without the regulatory exposure.

The compliant distribution infrastructure for GPs and TPMs raising in Europe and beyond.

In a nutshell

- **Who**

TPMs, placement agents and GPs expanding across jurisdictions.

- **Problem**

Reverse solicitation is effectively closed. The wrong distribution channel now creates regulatory exposure that lands on you.

- **Solution**

A curated network of vetted, compliant European TPMs, backed by one regulatory counterparty.

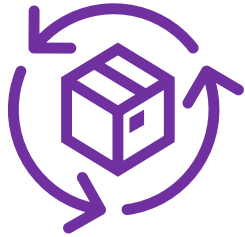

- **Edge**

The European raise, without inheriting the European risk.

- **Access**

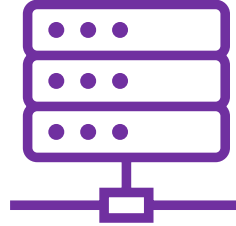

We ensure that even the most constrained institutional pools can access and hold the fund.

Dorhyan.eu: Everything Needed From One Platform

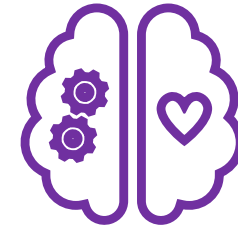

Infrastructure

- Distribution workflows
- Contract management
- Reporting & oversight

Regulatory Hosting

- Operate compliantly
- Expand across jurisdictions
- Reduce regulatory burden

Product Intelligence

- Fund structuring
- LP-specific Regulatory optimisation
- Due diligence

Accessing EU capital should be a growth opportunity.

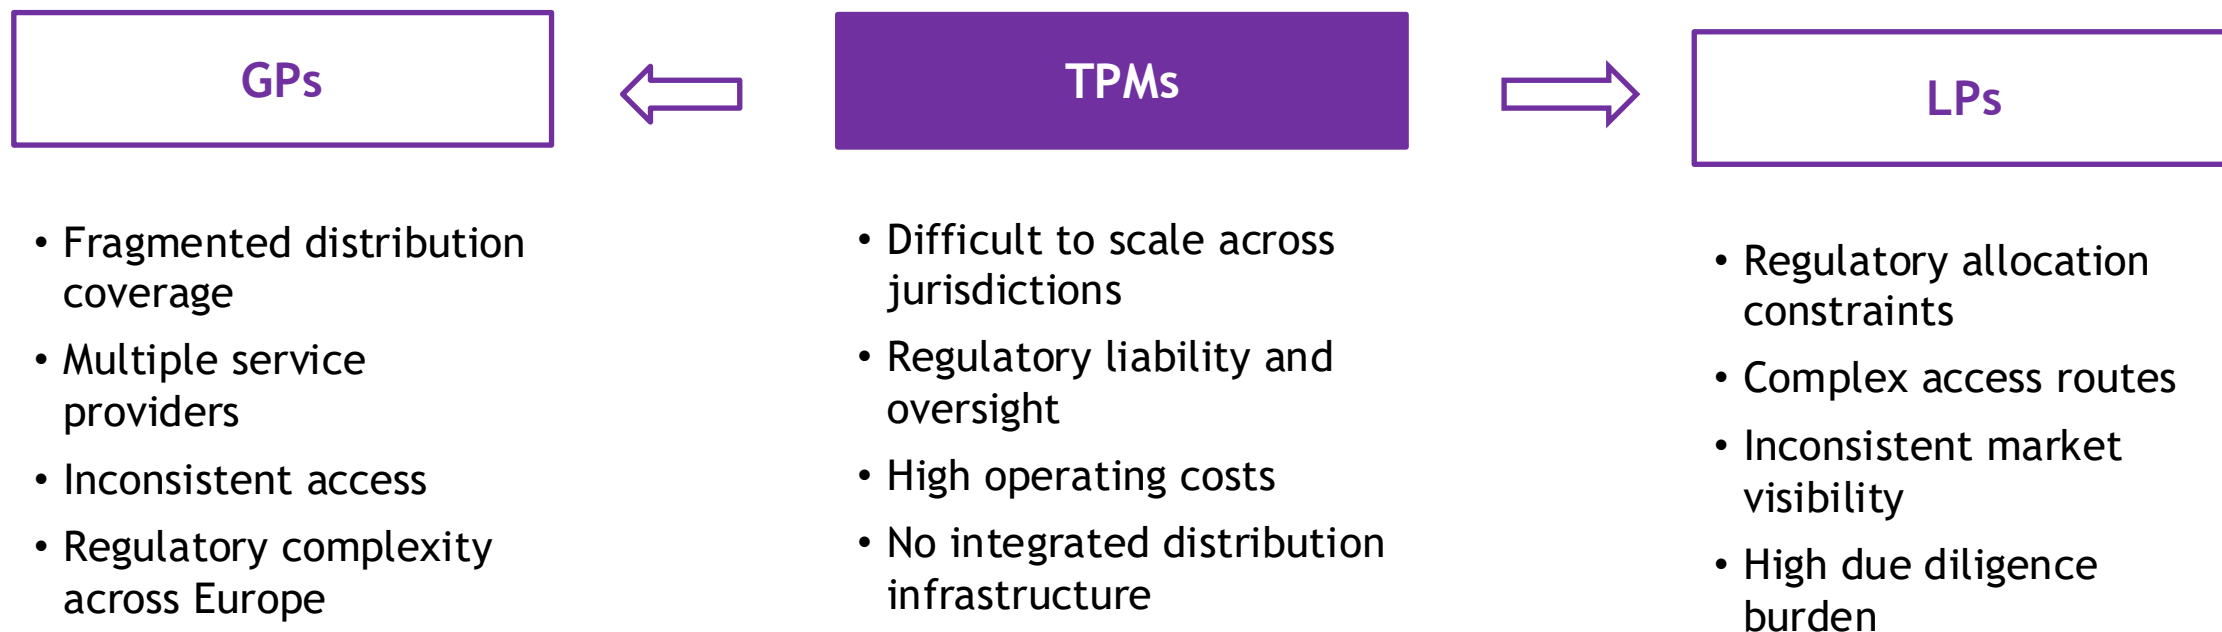

Capital is abundant but regulation is fragmented.

➤ The barrier is not capital. It is regulatory access.

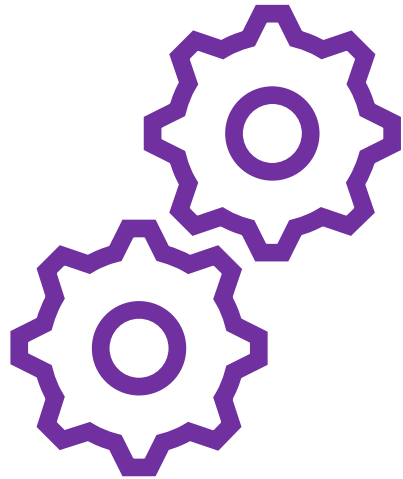

Cross-border distribution in Europe is minefield for all

➤ For the GP who owns the risk and the TPM who has to navigate it.

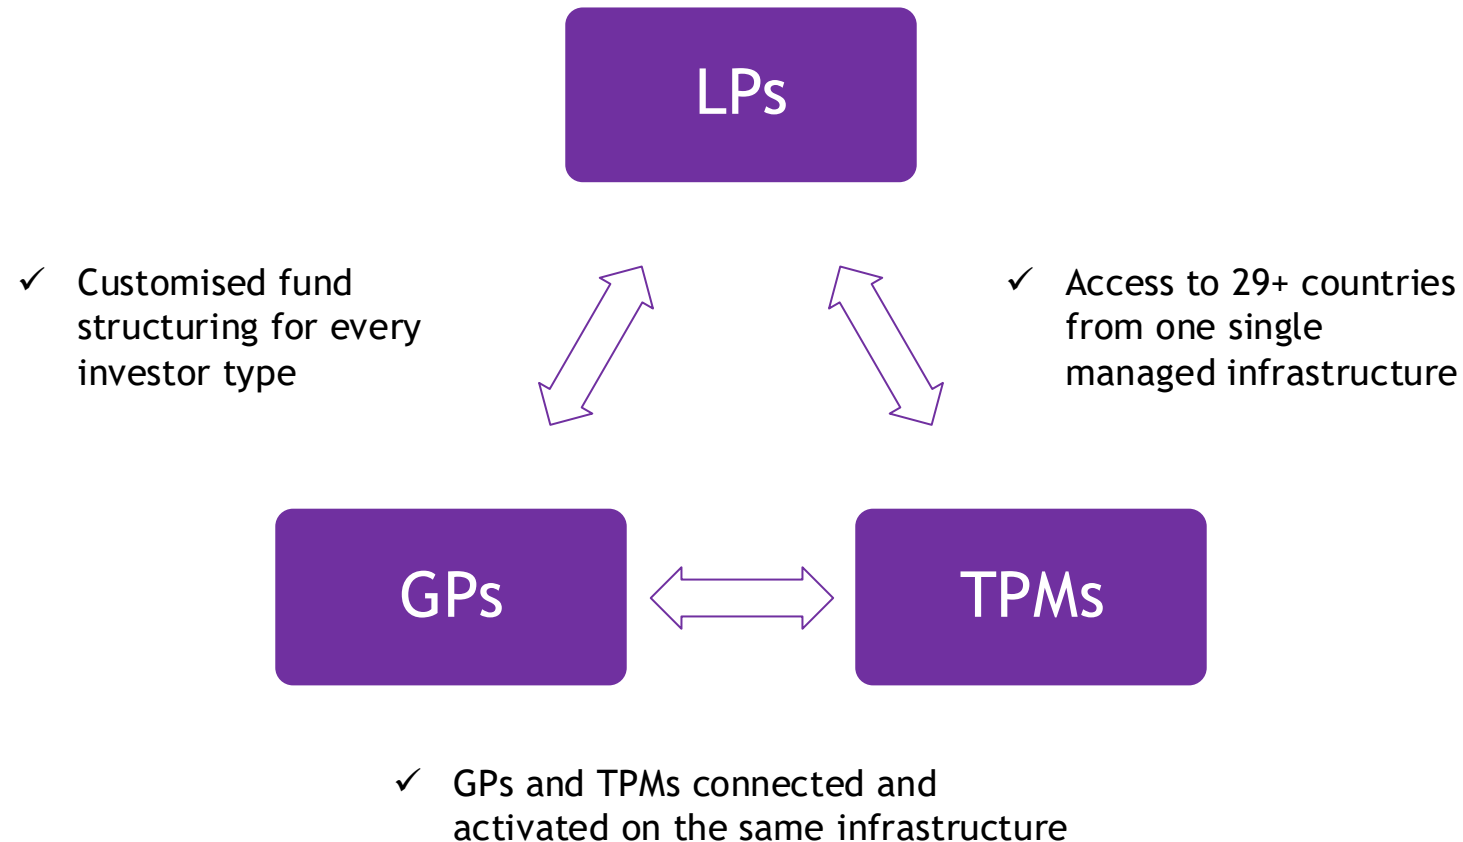

Dorhyan.eu provides the compliant channel neither side can easily build alone

- Dorhyan sits between the GP and European institutional LPs and TPMs. It makes them work together across Europe.
- One partner. Compliant TPM network, regulatory hosting and fund structuring from a single point of contact.

Dorhyan: One infrastructure. Every lever for cross-border AuM growth

- Cross-border growth simplified without the usual risks

Cross-border growth without the complexity

Capital

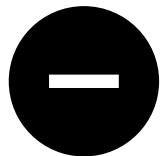

- Access constrained pools
- Reach more investors
- Benefit from a broader ecosystem

Cross-border access

- Uk, EU, Switzerland and Norway from one platform
- No regulatory duplicates

Institutional credibility

- Vetted TPMs
- Legal endorsements
- Product intelligence and due diligence
- Regulatory optimisation

Risks

- No reverse solicitation and mis-selling risks
- Build LP relationships

Drag

- No duplicate compliance
- No need to build in-house capabilities

Complexity

- No fragmented partners
- Ongoing oversight and support

Why Dorhyan: One accountable partner

➤ One ecosystem. One platform. One accountable partner.

- **Architecture**
Structuring, compliance and distribution fully integrated
- **Execution**
No delays, no legal drag, no process sprawl
- **Governance**
Avoid issues before they impact your raise
